The House is composed of 74 members. Of those, we have aiready reports of the election of 37 Republicans and 25 Democrats. It requires 68 votes to make a majority on joint ballot. The Republicans have now 59 votes in both Houses, and are therefore sure of the control of the Leg. islature whatever may be the character of the members yet to be heard from.

That they were now ready to make that plea, but they were placed in an unexpectedly painful position by a misapprehension that the Court had discretion of allowing the prisoner to be at large on ball sub-sequent to the plea of Guilty. They had just learned that it was at variance with the practice of the Court, and that it was necessary that Mr. Brayman should be placed at once in the custody of the officers of the law. It would be a layer to the counsel, and to their elient, if the case could remain in its present condition until Monday when Mr. Brayman would appear to plend as above.

The Court the District Attorney offering no objection, granted the request, and Mr. Brayman is still on bail until that time. On Monday he is to appear to plend guilty to a crime to which a a high pensity is attached.

her last appearance in our city for the present eason at the Metropolisa Theatre last night - of annual publications, interesting to the stran The entertainment was the most successful of the ger as well as resident, showing the growth of gosson, both as regards the number of attendants the City, and other various matters of interest, and the merits of the performances. Young's Hall was well filled, and we believe Mrs. Farten reserved her master piece to present upon her Frewell Benefit. She appeared in the character of Marion in the drama of the " Wreckers's Daughter," and in the representation of that character, the noble self-secrificing Marian, we think we will not meet the contradiction of any who saw her lest night, when we say she is without an equal. THE EMPIRE MILLS.-The Empire Mills of Mesers. Harrison & Chapin, situated on the water power in this city, are among the mose extenrive flouring mills in this State.

They keep three "run of stone" constantly going, and use both steam and water power .-Dropping in there yesterday, Mr. Chapin showed us a splendid two hundred horse power steam engine, which they have lately put up in the place of a smaller one. It is one of the band-somest, most convenient and completely finished pieces of machinery that we have ever seen. I is of Buffalo mapufacture, and is almost equal to some of the elegant steam engines got up in our city-and that is saying considerable for it !-There may be some difference of opinion about The following paragraph gives all the particulation, but it is as handsome an eastern made engine, however, as we have ever seen. The

amount of wheat ground in these mills in one season is almost fabulous. Mr. C. informs us that they put up on average about 400 barrels of flour a day when running. In connection with the mille is a large warehouse in which are stowed way at the present time 10,000 empty burrels. Messrs. Harrison & Chapin are enterprising gentlemen, and notwithstanding the "bard times" they manage to "keep the mill going'

YOUNG MEN FOR ACTION!

IF THREE YOUNG MEN IN EACH SCHOOL DISTRICT OF THIS STATE will resolve that there shall be a FULL VOTE, the thing will be done. The work is simple, and can be performed in ONE DAY, if systematically begun. Let the District be CANVASSED. Divide the District into THREE PARTS, and PROVIDE WAGONS to carry to the Polls all who live at a distance, and whoever shall have not voted by 12 o'clock. This simple work, thoroughly done would completely overwhelm the bogus Demoaracy in the State.

In each of our City Wards we need a good Working Committee of Young Man, who will see that the Ballots are provided in season, Vo-TERS urged to the Polls, and CHALLENGERS appointed to see FAIR PLAY. All these things should be attended to in season. Let them not be put off till the last moment, or neglected altogether. Vigilance, Activity and Organization will make a difference of One Thousand Votes, in the vor of the Republican Cause and Candidates in this City and County.

THE LA CROSSE & MIL. E. R. CO. DISCLOSURES PROMISED.

The News, in the course of one of its random articles, a day or two since, accounced "semiofficially" that legal measures were about to be instituted in order to bring to light the financial secrets of the La Crosse & Milwaukee R. R. Co. The Madison Argus, we observe, copies and chuckles over the statement of the News, prefacing the article with the following attractive

"We learn from a high and reliable source, that proceedings will be early instituted under the Revised Statutes of this Stata, to compel a discovery, and the provisions of law being ample for this purpose, there is no longer any motive for concealment. The Greuit Gourt is clothed with full power to probe this matter to its utmost dopth and bring to light every transaction of the Company. Then it will be made rs atmost dopth and oring to again the standard action of the Company. Then it will be made plain who told the truth, and who has lied.—
Thankful that we are not to be left to the tender mercies of a Shanghai Iuvestigating Committee, we await with confidence a judicial for the protection of beans fide stock and bond holders, and importatively demanded by the best luterests of our State.

light, or secret motive has so suddenly converted the News and Argus from defenders into nocusers of the La Crosse & Milwankee R. R. Company, we have to say, for the Republican Press and Party of the State, that they, at least, will offer no obstacle to the fullest and freest "investigation" that can be asked for. The managers of the La Crosse Road are and always have been the political friends of the News and Argus. It these journals insist that Mr. KILBOURN, Mr. HADLEY, Mr. JERKINS, Mr. MOSES M. STRONG Mr. Mosss Kneeland, &c., &c., shall be "smoked out," a "discovery" forced from them, and every transaction" of the Company " brought to light," assurable the Republican press will make no objection. Indeed, they will cheerfully assist in probing these matters to the bottom.-The News and Argus have endeavored to make it appear that the last Legislature "ruined" the La Crosse Company by giving them the North | majority. West Land Grant. If the fact be so, then are the Democrats of the last Legislature mainly responsible for "thus killing the Compamy with kindness"-since while all but two of the majority of the Republicans voted against it .-There are those, however, who believe, that bad management and not the bestowal of the Land Grant, has brought the La Crosse Road to its present pass. We agree, therefore, entirely with the News, that the best interests of the State. the rights of innocent stock and bond-holders, and, what is of not less pressing moment, the interests of thousands of honest, hard working Farmers throughout Wisconsin, who have mortgaged their Homesteads to help along the Rail Road enterprises of this State, and too many of whom are now troubled with the apprebension of seeing there mortgages fore-closed and their farms sold from under them -we say, that all these considerations, as well as common justice to the Officers and Directors themselves, News and Argus cannot begin too soon their promised " smoking out" process.

THE PUSION IN OHIO -It any further conformstion of the complete lusion, between the democrats and K. Ns. in Ohio were needed, it would be shown in the fact that in twelve important counties, Chiese accordly gains nearly 9,000 over his vote in 1855. The K. N. vote cast for ite is travelling westward on a visit to the principal own candidates then, has gone over to the demovescy, now and nearly succeeded in defeating the Republican ticket.

ASOTHER RAILROAD CONVENTION .- The Convention of General Ticket Agents of 38 Railroads to establish rates for the winter from the Mississippi to the Atlantic, and arrange for the details contemplated by the Clevel and Conventhen is now in session in Chicago. Samuel K. Platt represents the Milwaukee and Mississippi, and J. M. Kimosil, the La Crosse & Milwaukes.

Bring out a Full Vote. In order to make sure of a Republican victor

in the state of th

at the ensuing election, the importance of BRING-ING CULA FULL YOUR BIRCLING appreciated. The loss of four votes in each School District would be quivalent to the highest majerity our party has ever yet given. It is safe to expect that the desperate faction with which we contend will use every effort to bring to the polls all of their legal votes, and as many illegatones as they can. If they do not scruple, as we have seen, to import gaugs of Reil Road bands to secure the nomina tion of their d legates to the primary meetings, ther will certainly not besitate to poll as many bundress or thousands of illegal votes at the election as money can buy

Remember, People of Wisconsin, that a rout AND TAIR FORE IS A REPUBLICAN VICTORY. Our counsel to our friends is-Vote early yourselves, and then devote what time you can to tooking up the backward voters. Cast every Republican vot, in each district, it possible, and watch the polis to see that your wishes are but thwarted ind overborne by outsiders.

Mr. Tonis was elected Delegate, as Barstow was Governor, by a deliberate fraud upon the Electors, and Mr. J. B. Choss personally advised and firected the one, while he endorsed and defended the other! Is a man who would stoop to such disreputable means to obtain a nomination for the high office of Governor, worthy the Suffrages of FREEMEN? Is a candidate, who, for his own benefit, would thus deliberately plan, and carry out a gross and inexcusable outrage upon the rights of Electors, deserving of support from any bonest man?

They had summoned him to the stand in the full confidence that his evidence would prove their charge against Gov. BASHFORD. Their disgust and disappointment, therefore, when, instead of confirming, Mr. Kil-BOORS atterly decies and disproves their accusa, tion, may readily be imagined. But for all that, t is too late for them now to try to discredit their own witness. They cannot, at least, imperch his "nuth and verseity," and as little can to facts. A LOUD CALL FOR "BEG ARS."-While the News is denouncing Judge RANDALL for canvassing the State, and praising Mr. Caoss for neglecting political affairs to attend to official busi ness, the Janesville Standard thus calls upon the Democratic candidates, to start round "a begging for veces":

Those of them who are stumpers should address the people, and those of them who are not, should visit different those of them who are not, should visit affected parts of the State, and by their personal presence inspiris the Democracy to increased exertion. The Democratic press have been doing manful battle ever since the nomination, and they will continue to do so from this to the election. But they want to see their condidates at mon. A lew months later, on the 4th of May, 1840, mark Harnden's new competitor, Adams, hurrying to the depot, er route to New York, with "a hat full of packages." Their vertoes lines run over 10,000 miles of Express route, and their expenses are propably not less than \$10,000 per week. The aggregate value of goods, &c., and money, entrusced to them for conveyance, will average, propably, not less than a million of dollars per day for every working day in the year, or over these hundred millions of dollars per amin.

The statistics of the American Express Company of New York are equally formulable; and it I were asked to make a rough estimate of the aver-

The Germans may well feel proud of their fellow countryman, and Americans may congratuate that the country can induce such also themselves that our country can induce such specimens of earth's nobility to make this their bome.

While listening to his words, we could burdly with the listening to his words, we could burdly indicating their designs, a long and rather rough lence rail was placed on one side of the entrance of the bank, and on the other side a large bucket of tur and a brigh with which to apply it.—

The rail bove this inscription: "NARY ERD TO NARY BROKES."

At shout ten o'clock a broker made his an pearance, but such was the crowd that he could not get near enough to the counter to present his bins, and he was soon convinced that he had better leave town as soon as possible. Although no violence was offered or threatened, he con cluded to take the back track. At this moment ciuded to take the back track. At this moment the Bank is satily guarded by cuizens, and wo to the speculator who persists in his nefatious business. The Bank is able and willing to pay all drafts, but the clitzens are determined that the degetimate business of mokers shall be checked, and that no money shall be paid out to this case of persons or their agents.—Springfield, Ill., Nonpariel.

The Lordon Sunday.—A very large and complicated organization would be required to collect the statistics of the habits of the population of London on a Sunday; but an attempt was made on Sunday, August 22, to throw some light on the subject, by a few gentlemen accustomed to observe and estimate large numbers of people.

The ontward passenger traffic by the railways, during the morning appeared to be about as follows: Great Western, by the 8 and 9 o'clock trains, 1900; aimo, by the afternoon trains, 2,400; Somm Western, by the two early excursion trains. trains, 1900; aitto, by the alternoon trains, 2,400; South Western, op the two early excursion trains, 2,500; ditto, parliamentary, 2,900; ditto, afternoon trains, 5,900; London and Brighton, with South Eastern, North Kent, and other lines at London Bridge, by morroung trains, 10,500; afternoon, 5,000; Great Northern, morning, 1,500; afternoon, 4,500; North Western morning, 1,800; afternoon, 4,500; North Westernoon, 4,500; North Westernoo

atternoon, 4,000; North Western modeling, 4; 800; atternoon, 1,009.

The steamboate above and below were crowded, and the various public gardens, &c., on the sides of the river were crowded. About 14,000 persons passed down the river, and about 6,000 upersons passed down the river and about 6,000 uperso persons pessed down the river, and about 6,000 up-wards, beyond the ordinary river traffic. In Greenwich Park there were about eighty thousand persons, and Gravesend and Woolwich were also crowded by visitors estimated at ten thourand, including the patrons of Rocherville Gardens, &c. At five o'clock, there were nearly two thousand persons in Ormanne Gardens, and it eight o'clock fully four times that number. Hampton Court was soarcely as crowded by visitors as on some previous days, but the numbers and the excurtionists to Kew have been all ready estimated by the boat and train. In the Regent's Park the numbers have not been counted at any time during the sammer, though the number of "penny-aliners" have given exten numbers. There was an immense crowd listening to the people's subscription band in the Regent's Park, on Sanday, and at a low estimate the numbers considerably exceeded 100,000. In the Victoria Park, where another people's band played from 5 to 7 o'clock, there were about 60,000 persons present at the time. The aristocracy had a very large number of carriages in Hyde Park, and about \$0,000 entered Kensington Gardens during the alternoon. From these estimates, intended to be free from all exaggeration, it would appear that out of the population of London, about one quarter of a million were engaged in recreations on the Sab-bath. words beyond the ordinary river traffic In Green-
